

Please do not allow the Indiana No Call list to be weakened by the self-serving banking industry. The banking industry makes money hand-over-fist off of people barely able to keep up with basic financial responsibilities.

Many people worked hard to make this telephone privacy act come together and succeed.

Privacy is fast becoming endangered in our society. I cherish it and believe it is my right to protect my privacy. Please help us keep the right to not be interrupted constantly by phone calls of a solicitous nature in the privacy of our own homes.

Thank you for considering my comments.

Sincerely,
Hope Sibley
